COMPANY OVERVIEW

GROUP STRUCTURE

Saku Metall Allhanke Tehas provides subcontracting service and specializes in manufacturing sheet metal assemblies according to customer requirements.

Saku Metall Uksetehas is a door factory.

Both companies are part of Saku Metall Group but operate separately.

COMPANY OVERVIEW

TIMELINE

1998

Subcontracting business line was introduced to find work for newly acquired machinery. Soon the agreement with KONE was made to start manufacturing elevator floors.

1991

AS Saku Metall was founded and started performing various metal works in Tallinn, Saku street. Couple of years later the focus shifted to producing only steel doors.

2004

New production facility established in Karjaverre. Expansions in 2006 and 2008.

2012

Saku Metall AS was divided into subsidiaries - Saku Metall Uksetehas AS (door factory) and Saku Metall Allhanke Tehas AS (subcontracting factory)

2020

All production and offices were moved to Karjaverre. AS Saku Metall Uksetehas built a new production facility in Karjaverre.

2023

Karjaverre OÜ became the holding company and AS Saku Metall became a subsidiary, now alongside AS Saku Metall Allhanke Tehas and AS Saku Metall Uksetehas.
